

Dan & Lori Fleming's Wedding August 13th 2005.

I am the sister of the groom, Dan. I attended the rehearsal dinner on Friday and got the grand tour. You have a lovely facility. Dinner Friday night was outstanding. I mean really outstanding. I can't remember attending a function buffet style where the food was as good. Kudos to your staff and chef(s).

The wedding outside on Saturday was very enjoyable. The scenery was "picture perfect". You are in a nice location. While everyone was off getting their pictures taken, the games room inside was a perfect way to wait for dinner and to socialize in after, as was the balcony and patio. Again, dinner Saturday night was outstanding. I can say with all honesty that I have never attended a wedding or banquet where the food was as impressive. Again, my compliments to your staff and chef(s).

Throughout both days, the staff was extremely helpful. Always there when you needed them, but not in anyone's way. Plates were cleared quickly, and all questions and requests responded to promptly and with a smile. Never once did I get the impression that the guests were an imposition to you. You went out of your way to make sure we were all well looked after.

As I am in facilities management, one of my personal pet peeves at any banquet type function is the condition of the bathrooms. Again, my compliments. All through the evening your staff ensured the bathrooms were spotless. Very impressive.

All in all I thoroughly enjoyed my experience at the SandCastle Resort. I have told everyone about my brother's wedding, and I didn't hesitate in telling them all about your facility. I am doubly impressed since I found out that was your first wedding. Congratulations!! You should be very proud.

Sher Fleming

We can't say enough truly wonderful things about the SandCastle Resort. Our wedding there was a weekend of magic that started from the very moment we walked through their doors. We were so warmly welcomed into their establishment and were immediately catered to. Our every need and those of our guests were promptly attended to, accompanied with many warm smiles.

We were very impressed by the amazing service we received while staying at the SandCastle Resort. The staff are a fabulous bunch of people who truly believe in making your stay there - a memorable one. No matter how small or large the task at hand was for planning our wedding day, they were always right there helping out and ensuring that every detail was perfect. They not only strive for perfection, they rise above it.

Every meal was a masterpiece served to perfection; quality and excellence in every bite, combined with outstanding service from the entire staff made each meal very enjoyable.

Our reflections back on our stay at the SandCastle Resort are those of a fantasy. They are filled with wonderful memories of a perfect weekend spent with our friends and family inside a luxurious facility, leading to our "picture perfect" wedding out in nature's backyard surrounded in breathtaking scenery. Because every detail surrounding that day was so well looked after, we were able to fully embrace every moment of our day, with no other thoughts than those of each other.
